

Are you planning to create a 3D programme?

Dimension3's creation grant is just the thing for you!

1. Presentation of the grant

Dimension3 aims at encouraging creativity, by helping create an artistic programme in 3D (whether using CGI, real-life shooting or a combination of both).

2. Grant value

The grant will be awarded for a total value of 3,000 euros (presented as a combination of cash and hardware).

3. Awarding procedure

At the end of 2008, a commission of experts will study the presented projects and announce a final choice.

4. Conditions for participation

The grant is not awarded to an artist, but rather to the organisation in charge of the project: corporate body, association or company. Public corporations can be associated to certain projects as sponsors, but are not eligible for this grant.

The projects must highlight the potential of 3D technologies (writing, rhythm, staging...).

They can be destined to be displayed in theatres or on screens, and can be autonomous programmes (short films) or used as a part of a show or event.

Especial attention will be paid to innovation and the exploration of new expression forms, with an emphasis on the artistic approach.

5. Application files

The file presented by applicants includes an art dossier with the synopsis, a storyboard as well as a technical and financial description of the project.

Applications must be presented both in paper and electronic versions.

Incomplete applications will not be considered.

The application's electronic version shall include as few files as possible, and present the following elements:

a - The art dossier (PDF and paper):

1. A presentation sheet of the project
2. A detailed description of the artistic project (purpose, synopsis, setting...)
3. A description of the project's technical characteristics: format, software used and specific development issues
4. A bio of the project's leader and of the artists involved in its making (*must mention whether the project relied on public grants*).

b - Budget & schedule (PDF and paper):

1. A detailed budget for the project, including all supporting documentation for announced partnerships (letters of intent or contracts from all operators, rights transferees, co-editors and financial backers)
2. The production schedule.

c - Additional image and sound contents (in digital format, and on paper if possible): Any other content giving better insight into the project.

d - The administrative file (paper only):

1. For commercial companies, registration certificates no more than three months old; name, birth place and date, and address of the company leaders
2. For associations, copy of the articles, proof of registration; name, birth place and date, and address of the leaders
3. Bank account details

6. Application submission

Applications for this grant are to be sent to:

Avance Rapide Communication / Dimension 3 expo Creative Grant / 5 rue Victor Hugo / 92310 Sèvres / France

7. Application reception deadline

Applications files must be received by Friday, 26 September, 2008.

They will be studied by a committee of experts, with the possibility for interviews in order to decide between finalists. The results will be announced in December, 2008.
